

Rommel

A tabletop game of great battles in the Second World War
by Sam A. Mustafa

The DIY Unit Cards Worksheet

This file is provided free for players who wish to create their own unit cards. Simply print out however many copies you require and fill in the unit data yourself.

If your printer can handle it, thick cardstock (80# or greater) works best because it is sturdy enough to withstand writing and erasing. You can use different colors of cardstock for different nationalities.

I hope you enjoy playing *Rommel*.
